Value : Courage

‘ I can do all things through Christ who strengthens me.’

Philippians 4:13

Dear Parents/Carers,

Thank you to all who attended Sports day. What an enjoyable afternoon it was for all.

The greatest part of events like this is seeing just how well all the children live out the vision and values of our school!

Perseverance: The ability of all children from Reception to year 6 to keep going even if they encountered a challenge

Courage: Being fearless enough to have a go even if they will win or lose.

Friendship: Cheering each other on with such energy and joy

Kindness/compassion: Sharing a positive word with those who didn't win and being encouraging of all children!

Looking forward to seeing you all again at the many other events taking place in the last few weeks of term!

Ladybirds have been working very hard this month. They are definitely ready for Year 1. In class the children have been doing a lot of role playing including playing at being medical professionals and construction workers

Hedgehogs have had a very busy month in Hedgehogs, from race for life to sports day. All of the Hedgehogs have shown sportsmanship, resilience and perseverance, well done! As well as this, Hedgehogs have been learning about position and direction in maths, setting descriptions in English, minibeasts in science, Silverstone race track in history and Andy Goldsworthy in art.

Otters have been experimenting in science with changes between solids, liquids and gases! this has included designing our own experiment to find out which environment would melt our ice cube the quickest and making careful observations to notice how water changes from a liquid to a gas when heated to boiling point. We love our science lessons and will later find out how

Dolphins have had another great month of learning and flourishing together. Our Year 6's are preparing themselves for their new adventures as they visit their secondary schools for transition day - we wish them the best of luck! We have continued to learn lots; studying King Henry VIII, experimenting with irreversible changes as well as writing some AMAZING debate articles.

Average Attendance - 2022-2023

Ladybirds: 96.6%

Otters: 95.4 %

Hedgehogs: 90.0%

Dolphins: 95.6 %
